**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

**IN THE CLAIMS:**

Claim 1, line 12, "a" has been deleted in both occurrences.

**Reasons for Allowance**

3. The following is an examiner's statement of reasons for allowance: a method and apparatus for serial data communication between plurality of chips are disclosed. The closest prior art, Taniai et al, US Patent No. 5,438,665, discloses similar method and apparatus. However, Taniai et al does not explicitly teach or fairly suggest "Input output control signal is generated in response to a synchronization clock signal when the control signal is activated/in the first state" such limitations, as recited in the based claims and in combination with the other claimed limitations, are neither anticipated nor rendered obvious by Taniai et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
